Ist Social Entrepreneurship im öffentlichen Bewusstsein angekommen?

Jedenfalls wird das Wort immer öfter in der öffentlichen Debatte verwendet. Es ist auch bei politischen Entscheidungsträgerinnen und -trägern angekommen und wir können darüber mittlerweile differenzierte Debatten führen. Das ist spannend. Und das ist fein. Aber klar, es ist noch viel zu tun.

1 You do not have to worry about the heading, the format is fixed.

2. The introductory paragraph is red and italic. Select the paragraph as you would do normally and choose ".intro" for "FORMATS" and "paragraph" for "PARAGRAPH".

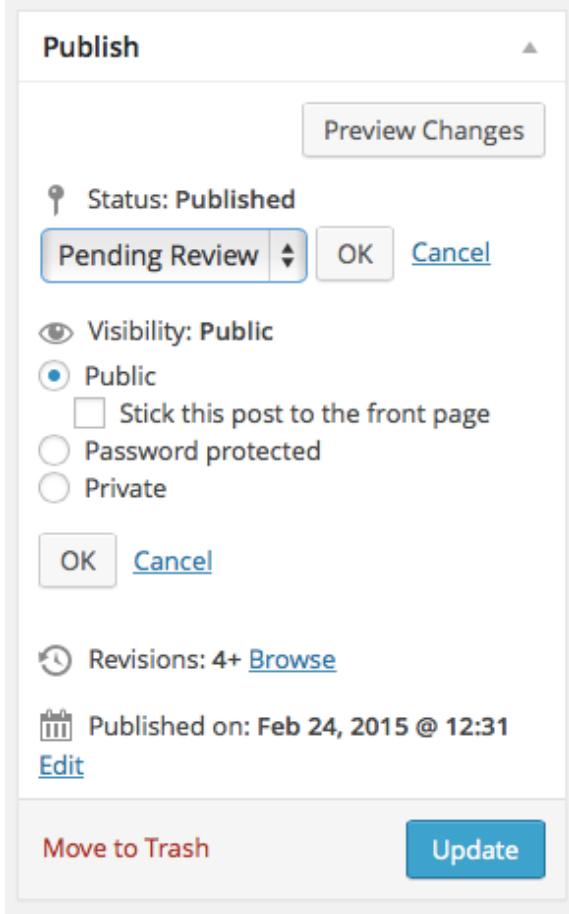

3. Select the rest of the text and untick „.intro“ for „FORMATS“ so that none of the three styles shows a lightgrey mark. Leave the setting „paragraph“ for „PARAGRAPH“. Write headings in the text or interview questions BOLD „B“.

4. To insert a link into a text phrase, mark the phrase and click the button in the red box.

ABOUT US

ERZSÉBET
SEKERES

Country, Date of election
HUNGARY 1997

Field
HUMAN RIGHTS

Erzsébet Szekeres has created a nationwide program for training, employing and housing disabled adults. As a result of her efforts, her hometown has become a principle locus of activity for the disabled in Hungary.

PROBLEM

As she was searching for an appropriate after-school program for her son, Erzsébet Szekeres was unable to find any she felt confident in adopting. The limited possibilities of employment, qualification and housing are all holding back disabled children from living an independent life like healthy kids do.

IDEA

She established the Rehabilitation Centre, a complex care system in Csömör with two main organizations. The Cooperation Rehabilitation Centre helps the physically and mentally disabled by ensuring the possibility of employment and the Equal Rights Foundation provides them with accommodation. This for them means the chance of an independent life.

MOTIVATION

After her child was born, Erzsébet became aware of the harshness of disabled people's lives and understood that social integration is almost impossible for them. Erzsébet would like to create an institution where they can implement their independence by developing their own qualities.

IMPACT

The Rehabilitation Centre provides jobs for nearly 600 physically and mentally disabled people in areas like gardening, sewing, cleaning, animal husbandry and a lot more. During the past years, hundreds of young people got a chance to work despite the fact that most people had already given up on them. In addition, the Centre provides a home for about 120 adults.

VISION

Erzsébet would like to see in the future as well that the Rehabilitation Centre is working successfully and providing home and opportunities for more and more young people. Furthermore, she would like to establish a training centre which would provide trainings and support for foster children with disadvantages.

Zeitpolster ist ein Vorsorgesystem auf Zeitbasis. Ziel ist es, solidarische zwischenmenschliche Beziehungen zwischen älteren und jüngeren Menschen im Rahmen der nachbarschaftlichen Hilfe aufzubauen und zu fördern. Wer heute Menschen betreut, erhält eine Zeitgutschrift auf ein Zeitkonto und kann diese Jahre später für eigene Betreuungsleistungen einlösen. Der Gründer von Zeitpolster, Gernot Jochum-Müller, hat in Österreich, der Schweiz und in Deutschland bereits verschiedene Zeitwährungs- und Zeitvorsorgesysteme entwickelt und erfolgreich aufgebaut. You can re-order the order of partners by clicking on RE-ORDER on the left side and drag-and-drop their profiles into a new order.

The screenshot shows a web-based administration interface for managing partner profiles. On the left, a sidebar lists various site sections like Fellows, Team, Partner, and Appearance. The 'Partner' section is currently selected and highlighted in blue. Below the sidebar, a header bar includes a 'Partner Add New' button (which is highlighted with a red box), a search bar labeled 'Search Partner', and a status indicator '25 items 1 of 2'. The main content area displays a table of 25 partner profiles. Each profile row contains a checkbox, the partner's name, a short bio, the date of upload ('Published'), and edit/refresh icons. The profiles listed include Andreas Treichl, (no title), Andrea Hlinka, Karin Novozamsky, Wolfgang Neubert, Hans Bodingbauer, Beate Winkler, Andrea Sutter, and Norbert Zimmermann.

FELLOSHIP PROGRAMM

Ashoka Fellows erhalten ein individuellen Stipendium aus unserem internationalen Netzwerk für 3 Jahre zur Deckung ihrer Lebenskosten. So kann er/sie sich voll auf die weitere Verbreitung seiner/ihrer Lösung konzentrieren. Neben dem Stipendium stellen wir unsere Fellows auf unser Netzwerk von Investoren, Pro Bono Partnern und Pro Bono Consultants zu. Vierzigprozentiges Unser Fellowship Programm legt den Fokus auf Skalierung und Wirkungsmaximierung damit die Lösung dorthin kommt, wo sie gebraucht wird.

The screenshot shows the WordPress dashboard for the site "Ashoka Austria". The left sidebar contains a vertical menu with items: Posts, Fellows, Team, Partner, Media, Pages, Comments, Appearance (which is highlighted with a red box), Plugins, Users, Tools, Settings, Custom Fields, Optionen, and Collapsing the menu. The main dashboard area has sections for "At a Glance" (16 Posts, 11 Pages) and "Activity" (Recently Published posts by Marie Ringler, Discovering Hands, Gregor Demblin, Saskia Wallner, Klaus Malle). DIGRESSION: MULTISITE CONTENT COPIER

As we share a lot of the same content on our CEE-country-websites (Fellows, Team etc.), we have a tool to copy content to one other or all other sites.

This tool is called Multisite Content Copier and is an option on the bottom of the POSTS, FELLOW, TEAM and PARTNER page.

DIGRESSION: MULTISITE CONTENT COPIER

The Multisite Content Copier is closely linked with the language tool.

IMPORTANT: The language the post is saved in will determine on which website the post will be shown.
It does not matter which language the post is actually written in.

If you save the post in your language, for example “German”, it will only be shown on the Austrian website. You should have all posts in your language and in English as well. You can add translations by clicking on TRANSLATIONS in the LANGUAGE tool.

For example: Our Fellow Profiles are all written in English.
We save them in “GERMAN” though so that they are visible on the Austrain Ashoka website.
We save them in “ENGLISH” as well so that they are visible on the english website as well.

DIGRESSION: MULTISITE CONTENT COPIER

Now: HOW TO SHARE POSTS

1. Save the Post / Profile etc. in ENGLISH by clicking UPDATE / PUBLISH.
2. Go to the Multisite Content Copier on the bottom of the page and choose one specific page or ALL SITES. You can choose your own country as well.
3. Other countries can go to their dashboard of the category you have uploaded in (News, Fellows etc.).
4. They click on the post / profile and change the language to their own language (even if it is in English). The post will then show up on their country-website.
5. Countries can add translations in their mother-tongue by clicking translations.

The screenshot shows a 'Languages' section with 'English' selected. Below it is a 'Translations' section with a German flag icon and a plus sign. The 'Publish' section includes a 'Preview Changes' button and status information: Status: Published, Visibility: Public, Revisions: 4+, Published on: Feb 24, 2015 @ 12:31. There are 'Move to Trash' and 'Update' buttons at the bottom.

The screenshot shows the 'Multisite Content Copier: Copy content' interface. It has sections for 'Select destinations' (radio buttons for 'All sites' and 'Site group', with 'Select a group' checked and a dropdown menu showing 'Ashoka Czech', 'Ashoka Hungary', 'Ashoka Poland', 'Ashoka Slovakia', and 'Ashoka Austria'), 'Additional Options' (checkboxes for 'Copy images', 'Update parents', 'Copy parents', 'Copy comments', and 'Copy terms (Tags & Categories)'), and a 'Copy' button at the bottom right. A small note indicates '(including images)' next to the 'Copy images' option.
